

I AM NCR SILVER PRO

Restaurant Edition

Get the simple point-of-sale solution that will help you manage and grow your business

NCR Silver Pro Restaurant Edition is a cloud-based point-of-sale (POS) solution for small and medium sized restaurants. We at NCR, the global leader in restaurant technology, leveraged our decades of experience in the restaurant industry and built a powerful, reliable and simple-to-use POS solution to support businesses that are underserved in many ways by technology today. Designed to run on the iPad and the iPad Mini, this cost-effective, high-tech solution was specifically tailored to help businesses with simpler operations become more efficient, grow sales and increase profitability.

Perform the consumer transaction using your iPad

Taking orders and ringing up sales from this point-of-sale app is optimized for different types of venues, including table service, quick service, bars and fast casual restaurants. The important functions for restaurant operators, such as modifiers, kitchen printing, takeout and delivery, or tip distribution, are all here but simplified to get your restaurant up-and-running in no time.

Manage your business on-the-go with detailed reporting and mobile dashboards

Since it's a cloud-based POS, you can access your restaurant's business metrics and reports securely in real-time, from any web browser. You'll be able to step outside your business's doors but still have access to the key data that you need to know – even from your smart phone.

Why NCR?

NCR Corporation (NYSE: NCR) is the global leader in consumer transaction technologies, turning everyday interactions with businesses into exceptional experiences. With its software, hardware, and portfolio of services, NCR enables more than 485 million transactions daily across retail, financial, travel, hospitality, telecom and technology, and small business. NCR solutions run the everyday transactions that make your life easier.

NCR is headquartered in Duluth, Georgia with approximately 29,000 employees and does business in 180 countries. NCR is a trademark of NCR Corporation in the United States and other countries.

Grow your business by engaging with your customers through email and social marketing

Bring a unique customer experience to life – use creative templates for social media and email marketing to increase sales and connect with your customers digitally. With the ability to track customer behavior and send personalized promotions and large scale campaigns, you'll learn more about your customers, gain new customers and turn your repeat customers into fans.

Keep your restaurant operations up and running even if your internet connection fails

We know how important it is for you to be able to serve your customers at all times. Our fault tolerant architecture will keep all your point-of-sale terminals running even if the internet connection is down.

Implement a high quality technology solution quickly and easily

With a low cost of entry and quick, professional implementation support, you will be able to drive higher business performance without a long and disruptive deployment and installation process. NCR Silver Pro Restaurant Edition is easy to set up and is available as a subscription service. We know you need to focus on business growth – not on challenging technology.

Key features

- Easy, intuitive user experience
